*Welcome to this issue of prestamagazine, the world's digital magazine Prestashop.*

*We already have the end of Prestashop version 1.5, and we will explain how the multi store, to work it locally before upgrading or try a live server.*

*We will assume that you have running in your local version of PS 1.5*

*But may check the guide online Prestashop <http://www.prestashop.com/en/getting-started>*

*In our case, the testing for local use WAMP server (<http://www.wampserver.com/en/>), But is similar to other servers.*

*Our Prestashop installation is in c: \wamp \www \prestashop517*

*That's where the store is full. For other stores, you do not need to reinstall Prestashop, and that is the mistake that many, think that will be installed in all stores Prestashop need.*

*The multi store operation is the same database that our installation c: \wamp \www \prestashop517, so do not need another database. What it does is add the field Prestashop id\_shop to the tables to create individual settings for all stores.*

*The first step is to create an alias for our stores secondary (remember that we have the flagship store in c: \wamp \www \prestashop517). For this, we will click on the Wampserver icon found next to the time:*

## / DONATIONS

To help us keep free products, axial as this magazine, you can make a donation by Paypal to:

[rsi\\_2004@hotmail.com](mailto:rsi_2004@hotmail.com)

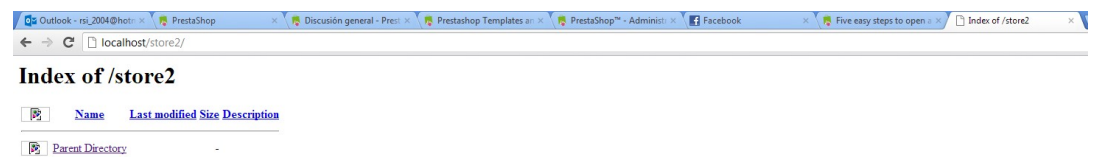

Let the option Apache -> Alias Directories -> Add an alias

For example Store2 use the name, and the physical url to your hard c: \ wamp \ www \ Store2

The directory must be in wamp / www which is our local server, and Store2 folder must already exist, but we will fail. After this point, restart the wamp server, and proceed to configure in Prestashop.

If we enter the url of our alias, we should see the blank page, with the possibility of going to the root directory (that means it works)

# PrestaMagazine-RSI

To configure multi store, first let's preferences and select the option to enable the Multi Store

Preferences > General

☐ General

☐ Check/uncheck all (check boxes if you want to set a custom value for this shop or group shop context)

☐ Enable SSL Please click here to use HTTPS protocol before enabling SSL.  
If your hosting provider allows SSL, you can activate SSL encryption (https://) for customer account identification and order processing

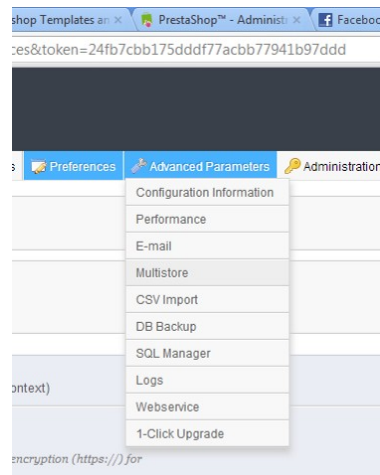

Increase Front Office security ☒ Yes ☒ No Enable or disable token on the Front Office in order to improve PrestaShop security

☐ Round mode You can choose how to round prices: always round superior, always round inferior, or classic rounding

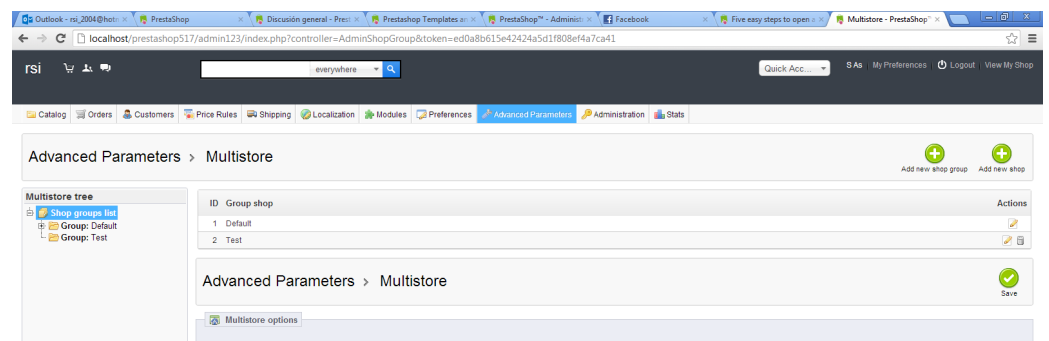

☐ Display suppliers and manufacturers ☒ Yes ☒ No Display suppliers and manufacturers lists even if corresponding blocks are disabled

Enable Multistore ☒ Yes ☒ No Multistore feature allows you to manage several shops with one back-office. If this feature is enabled, a "Multistore" page will be available in the "Advanced Parameters" menu.

After that, we enable multi shop and nparametros advanced option

Since the multi-shop, we can create groups of stores, or add to the default group (whose flagship store we are now).

# PrestaMagazine-RSI

Select the Add new store, and then configure some basics as the template, the name of the store (for identification), the categories to include, and will import things from our original store to the new store (here we see if it will import all, or just what interests us)

Shops > Add new

Multistore tree

- Shop groups list
  - Group: Default
  - Group: Test

Shop name:

This field do not refer to the shop name visible on the front office. Follow [this link](#) to edit the shop name used on the front office.

Group Shop:

Warning: you won't be able to change the group of this shop if this shop belongs to a group with one of these options activated: Share Customers, Share Quantities or Share Orders

Category root:

This is the root category of the store that you create. To define a new root category for your store [Click here](#)

Associated categories:

☒ Home

☒ Products

☒ Accessories

☒ Utilities

By selecting categories associated, you choose to share the categories between different shops. Once associated between the shops, any alteration of an associated category will impact all the shops for which those categories will be associated.

Theme:

\* Required field

Import data from another shop

Import data: ☒ Yes ☐ No

Choose the shop (source):

Choose data to import:

- ☒ Address groups
- ☒ Available quantities for sale
- ☒ CMS Block
- ☒ CMS page
- ☒ Carriers
- ☒ Cart rules
- ☒ Combinations
- ☒ Contact
- ☒ Countries
- ☒ Currencies
- ☒ Customer groups
- ☒ Discounts

After this, we will select the place you store to the corresponding URL (in our example, localhost/store2)

Creation successful

Shops > Default

Multistore tree

- Shop groups list
  - Group: Default
  - Group: Test

ID	Shop	Group Shop	Category	Shop main URL
1	rsi	Default	Home	<a href="http://localhost/prestashop517/">http://localhost/prestashop517/</a>
4	old	Default	Home	<a href="http://localhost/prestashop503/">http://localhost/prestashop503/</a>
5	store2	Default	Home	<a href="#">Click here to set an URL for this shop</a>

Disponible en inglés, francés y español  
Imágenes ilimitadas  
Configure el color del texto, tamaño, descripciones, tiempo de duración, el tipo de efectos, y mucho más!  
Agregue productos a cada slide.

### Shop URLs > Add new

**Multistore tree**

- Shop groups list
  - Group: Default
  - Group: Test

#### URL options

Shop: store2

Main URL: ☐ ☒ ☐ ☐

If you set this URL as the Main URL for the selected shop, all URLs set to this shop will be redirected to this URL (you can only have one Main URL per shop).  
Since the selected shop has no Main URL, you have to set this URL as the Main URL.

Status: ☒ ☐ ☐ ☐

Enabled or disabled

#### Shop URL

Domain: localhost

Domain SSL: localhost

Physical URL: /store2

Physical folder of your store on your server. Leave this field empty if your store is installed on the root path (e.g. if your store is available at [www.my-prestashop.com/my-store/](http://www.my-prestashop.com/my-store/), you would set my-store/ in this field).

Virtual URL:

**You need to activate the URL Rewriting if you want to add a virtual URL.**

Your final URL will be: <http://localhost/store2/>

When you save, and we run our second store.

We will have the option enabled to configure any of our stores from the back office. For example, in the section modules that can select or store will disable modules will qualify

Catalog Orders Customers Price Rules Shipping Localization **Modules** Preferences Advanced Parameters Administration

Multistore configuration for **old**

Check: To the order of and address

# PrestaMagazine-RSI

When we add or modify a product one can also choose to store it added.

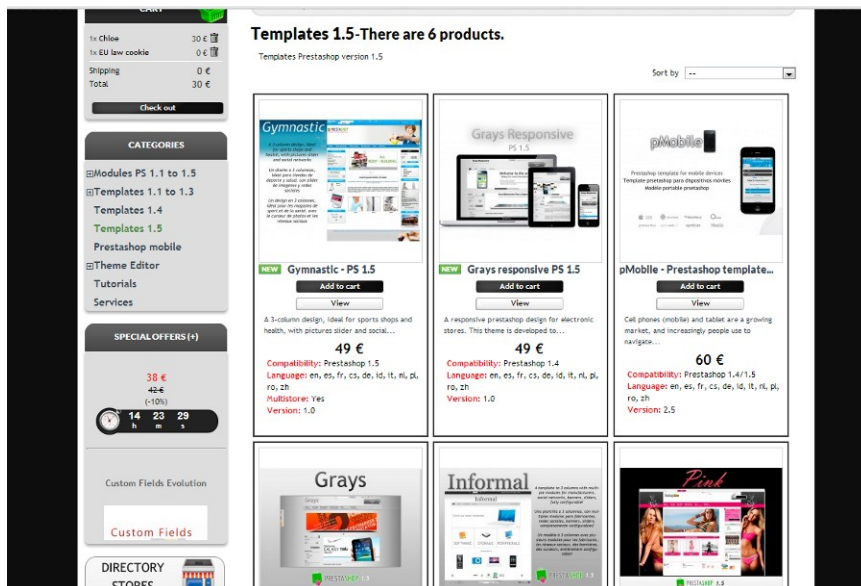

The screenshot shows the PrestaShop administration interface. At the top, there's a navigation bar with the 'rsi' logo, a search bar, and links for 'Quick Acc.', 'My Preferences', 'Logout', and 'View My Shop'. Below this is a menu bar with various administrative options like 'Catalog', 'Orders', 'Customers', etc. The main content area is titled 'Catalog > Products' and includes a 'Filter by category' dropdown and a 'Filter' button. A table lists the products in the catalog.

ID	Photo	Name	Reference	Category	Base price	Final price	Quantity	Displayed	Actions
1		iPod Nano		iPods	\$124.59	\$119.35	--	✓	  
2		iPod shuffle		iPods	\$99.05	\$99.05	--	✓	  
3		MacBook Air		Laptops	\$1,594.19	\$1,594.19	--	✓	  
4		MacBook		Laptops	\$1,170.57	\$1,170.57	--	✓	  
5		iPod touch		iPods	\$241.64	\$241.64	--	✓	  
6		Delrin Leather Folio for iPod nano - Black / Chocolate		Accessories	\$25.04	\$25.04	--	✓	  

## Modules ready for multi store

On our site [www.catalogo-onlinersi.net](http://www.catalogo-onlinersi.net) , You will find many modules and adapted to multi store (especially the sliders of images that should be tailored specifically to work) and templates for PS 1.5

The screenshot displays a web interface for PrestaMagazine-RSI. On the left, a sidebar contains a shopping cart with items like '1x Chloé' (30 €) and '1x EU law cookie' (0 €), totaling 30 €. Below the cart are links for 'Check out', 'CATEGORIES', 'Modules PS 1.1 to 1.5', 'Templates 1.1 to 1.3', 'Templates 1.4', 'Templates 1.5', 'Prestashop mobile', 'Theme Editor', 'Tutorials', and 'Services'. A 'SPECIAL OFFERS (+)' section shows a discount from 38 € to 42 € (10% off) with a countdown timer. Below this is 'Custom Fields Evolution' and a 'DIRECTORY STORES' link. The main content area is titled 'Templates 1.5- There are 6 products.' and lists six Prestashop 1.5 templates in a grid:
